- ✓ Delivered **remote troubleshooting to resolve** hardware/software issues within SLA.
- ✓ Assisted users with **application login/access issues, system navigation**, and operational queries.
- ✓ Supported **software deployment and updates** across departments to ensure **compliance and efficiency**.
- ✓ Managed **MySQL & MongoDB** databases, including **optimization**, backup/restore, and performance monitoring.
- ✓ Collaborated with teams to **streamline IT workflows** and improve user productivity.

Key Achievements:

- ✓ Achieved **95% first-response resolution rate** on IT support tickets.
- ✓ Reduced downtime by 20% through **preventive maintenance programs**.
- ✓ Boosted system performance with **optimized queries and proactive database monitoring**.
- ✓ Improved end-user satisfaction through **effective IT guidance and support**.

Security System & IT Support Technician - *Pustaka Rawang Sdn Bhd, Putrajaya, Malaysia.*

Duration: October 2017 - December 2021 (4 years 3 months)

- ✓ Managed **CCTV networks** and **biometric attendance systems** across 16 branches.
- ✓ Provided support for **desktops, printers, and security systems** (CCTV, access control, remote support).
- ✓ Conducted **preventive maintenance** to reduce breakdowns and downtime.
- ✓ **Performed** system backups and restorations, **ensuring business continuity**.
- ✓ **Partnered** with vendors to resolve escalated issues, **improving system reliability**.

Key Achievements:

- ✓ Implemented **centralized CCTV monitoring**, improving incident response by 40%.
- ✓ Integrated **biometric attendance with backend HR systems**, ensuring accurate records.
- ✓ **Streamlined multi-branch security operations**, increasing operational efficiency.

System Support Technician –*ART Group of Organization, Tamilnadu, India.*

Duration: March 2014 - December 2017 (3 years 6 months)

- ✓ **Assembled** and **configured** systems with **OS installations** (Windows/Linux) and essential software.
- ✓ **Provided** hardware support by setting up and **replacing peripherals** like monitors, keyboards, and printers.
- ✓ **Diagnosed** and resolved **hardware issues**, ensuring efficient system performance.
- ✓ **Performed** basic network troubleshooting to maintain **stable connectivity**.
- ✓ **Monitored** and **maintained inventory**, ensuring timely procurement and minimal downtime.

Key Achievements:

- ✓ **Improved** system deployment speed by 20% through streamlined assembly and setup processes.
- ✓ **Enhanced customer** satisfaction with **tailored system** configurations and efficient hardware support.

TECHNICAL COMPETENCIES

CCTV and ELV System:

- ✓ CCTV Installation & Maintenance
- ✓ Access Control & Biometric Setup
- ✓ Intruder Alarm Systems
- ✓ VMS Integration & Centralized Monitoring
- ✓ Security Compliance & System Audits

Networking & IT Infrastructure:

- ✓ Network & Switch Configuration
- ✓ LAN/WAN Setup & Troubleshooting
- ✓ Windows OS Installation & Configuration
- ✓ Peripheral Devices Setup & Maintenance
- ✓ Network Monitoring & Optimization

Core Competencies:

- ✓ Preventive Maintenance
- ✓ Multi-Site Operations
- ✓ Performance Monitoring
- ✓ Client Training & Guidance
- ✓ Incident Management

Database Management:

- ✓ Database Backup & Optimization
- ✓ Software Deployment & Updates
- ✓ End-User Support
- ✓ Troubleshooting & Issue Resolution
- ✓ System Access & Permissions
